

# SOLIDWORKS SKILLFORCE PROGRAM OVERVIEW

## Empower Your Interns. Accelerate Your Projects.

The SOLIDWORKS SkillForce Program is designed to help companies like yours onboard student interns more effectively by giving them the tools and training they need to contribute from **Day One**. Offered by Dassault Systèmes and supported by CAD Micro (now GoEngineer), this program provides free SOLIDWORKS software and certification support to eligible student interns.

## WHY PARTICIPATE

Hiring student interns is a great way to build your talent pipeline and get fresh ideas onto your team. But onboarding new interns can take time and resources. The **SOLIDWORKS SkillForce Program** helps you get more value from your internship program while giving students an opportunity to develop real-world skills.

## KEY BENEFITS

### For Employers:

- Free 3DEXPERIENCE SOLIDWORKS Premium or SOLIDWORKS Premium with Cloud Services term license for each eligible intern.
- Interns can contribute to live commercial projects immediately.
- Access to a pipeline of CWSA-certified, SOLIDWORKS-trained talent.
- Onboarding support from the CAD Micro technical team.

### For Interns:

- FREE 3-month license of industry-leading SOLIDWORKS software.
- FREE voucher to take the Certified SOLIDWORKS Associate (CSWA) exam if not already certified.
- Access to learning resources and training tools.
- Real-world experience working on commercial projects.

## WHO IS ELIGIBLE?

### Students must:

- Be currently enrolled in a recognized college, university, or technical institute.
- Have secured an internship with a company.
- Be working on commercial projects during their internship.

### Employers must:

- Verify the internship with the SOLIDWORKS team.
- Work with an authorized SOLIDWORKS reseller (like CAD Micro) to support license provisioning.

## HOW IT WORKS

1. Your intern applies to the **SOLIDWORKS SkillForce Program**, lists your company as their employer, and CAD Micro as their reseller.
2. SOLIDWORKS reviews and verifies the application.
3. CAD Micro receives authorization to provide the intern with a free SOLIDWORKS license.
4. Your intern receives their software.

## LET'S GET STARTED

Ready to bring in an intern who's equipped to deliver? We'll help you take advantage of the SOLIDWORKS SkillForce Program and ensure your intern is ready to make an impact.
